Education

Duke University **Aug 2026 - Dec 2027**
Master of Engineering - Design & Technology Innovation Durham, NC

University of Michigan **Aug 2022 - May 2026**
Bachelor of Arts - Art & Design, Bachelor of Science - Statistics, GPA 3.92 Ann Arbor, MI

- **Recognition:** Dean's List (2022-2025), William J. Branstrom Freshman Prize (Top 5% GPA)

Professional Experience

Product Design Intern **May 2026 - Aug 2026**
Healthy Behavior Optimization for Michigan (HBOM)

- Built resource hub page for 20,000+ users as sole designer, owning end-to-end design through Webflow CMS
- Ran competitive analysis and content audit validated by heuristic evaluation to inform IA and resource categorization
- Architected filtering system and scalable CMS organizing 50+ clinical resources for Michigan Medicine health initiative

Experience Designer **Oct 2024 - May 2026**
University of Michigan

- Owned physical and digital experience design for UMich's largest campus union, reaching 9000+ daily users and 300+ events
- Delivered website, 250+ branded assets, and reusable templates across 25 spaces; built 5 SOPs to standardize team workflow
- Conducted user research via concept testing, preference testing, and stakeholder interviews to align cross-functional partners

Product Design Research Specialist **Nov 2024 - Dec 2025**
Kellogg Eye Center

- Led character design and research for pediatric eye-exam robot, achieving 70% preference rate over traditional OCT exam
- Conducted mixed-method user research of intercept surveys with 30 users; synthesized findings into user personas, journey maps, storyboard, and AI-generated concept video to inform design recommendations for clinical and engineering partners
- Analyzed 1,200+ survey data via Bradley-Terry model in R and Python; co-authored 2 abstracts presented at conference

Product Design Assistant **May 2025 - Aug 2025**
DeepThink Lab, University of Michigan

- Built and shipped tutorial website for ICML 2025 from Figma to HTML/CSS/JS, serving 10,000+ conference attendees
- Accelerated front-end build using AI-assisted development (Claude Code) for generative AI research shipped in 6 weeks
- Restructured IA and evaluated 3 navigation variants through expert review with engineering experts to improve findability

Projects

Wearby | Figma, Procreate, Adobe Photoshop, Cricut Jan 2026 - May 2026

- Prototyped physical-digital experience of mobile app and physical product for daily reflection, validated through 19 user tests
- Developed scalable design system with WCAG AA standards, enabling consistent UI and customizable character experiences

TELL Tool (U-M Research Initiative) | Figma, Adobe CC Jan 2025 - May 2025

- Established cohesive identity and communication system for digital health tool, driving 77% donor conception disclosure rate
- Translated research goals into accessible design system and 30+ visual assets across 5 stakeholder cycles for 2027 conference

Skills

Design: Interaction Design, Information Architecture, Design Systems, Wireframing, Prototyping, User Flows, Accessibility (WCAG)
Research: User Research, Usability Testing, Surveys, Personas, Journey Maps, Heuristic Evaluation, Competitive Analysis
Tools: Figma, Adobe CC (Photoshop, Illustrator, InDesign, XD, Premiere Pro), Webflow, Miro, Canva, Rhino 3D
Technical: HTML/CSS/JavaScript, Claude Code, Codex, Python, R, Git/GitHub, VS Code, Microsoft Office Suite, Slack
