Education

Duke University

Master of Engineering - Design & Technology Innovation

Durham, NC

Aug 2026 - Dec 2027

University of Michigan

Bachelor of Arts - Art & Design, Bachelor of Science - Statistics, GPA 3.92

Ann Arbor, MI

Aug 2022 - May 2026

- **Recognition:** Dean's List + University Honors (2022, 2023, 2024, 2025), William J. Branstrom Freshman Prize

Professional Experience

Health Behaviors and Outcomes Mentorship (HBOM)

Remote

Product Design Intern

May 2026 - Aug 2026

- Initiated and led NVP Knowledge Hub end-to-end as sole designer, from Figma IA to full Webflow CMS implementation
- Ran competitive analysis and content audit validated by heuristic evaluation to inform IA and resource categorization
- Architected filtering system and scalable CMS organizing 50+ clinical resources for Michigan Medicine health initiative

University of Michigan

Ann Arbor, MI

Experience Designer

Oct 2024 - May 2026

- Owned physical and digital experience design for UMich's largest campus union, reaching 9000+ daily users and 300+ events
- Delivered website, 250+ branded assets, and reusable templates across 25 spaces; built 5 SOPs to standardize team workflow
- Conducted user research via concept testing, preference testing, and stakeholder interviews to align cross-functional partners

Kellogg Eye Center

Ann Arbor, MI

Product Design Research Specialist

Nov 2024 - Dec 2025

- Led character design and research for pediatric eye-exam robot, achieving 70% preference rate over traditional OCT exam
- Conducted mixed-method user research of intercept surveys with 30 users; synthesized findings into user personas, journey maps, storyboard, and AI-generated concept video to inform design recommendations for clinical and engineering partners
- Analyzed 1,200+ survey data via Bradley-Terry model in R and Python; co-authored IOVS abstract presented at ARVO 2026

DeepThink Lab, University of Michigan

Remote

Product Research & Design Assistant

May 2025 - Aug 2025

- Built and shipped tutorial website for ICML 2025 from Figma to HTML/CSS/JS, serving 10,000+ conference attendees
- Accelerated front-end build using AI-assisted development (Claude Code) for generative AI research shipped in 6 weeks
- Restructured IA and evaluated 3 navigation variants through expert review with engineering experts to improve findability

Projects

Wearby | Figma, Procreate, Adobe Photoshop, Cricut

Jan 2026 - May 2026

- Prototyped physical-digital experience of mobile app and physical product for daily reflection, validated through 19 user tests
- Developed scalable design system with WCAG AA standards, enabling consistent UI and customizable character experiences

TELL Tool (U-M Research Initiative) | Figma, Adobe CC

Jan 2025 - May 2025

- Established cohesive identity and communication system for digital health tool, driving 77% donor conception disclosure rate
- Translated research goals into accessible design system and 30+ visual assets across 5 stakeholder cycles for 2027 conference

Skills

Design: Interaction Design, Information Architecture, Design Systems, Wireframing, Prototyping, User Flows, Accessibility (WCAG)

Research: User Research, Usability Testing, Surveys, Personas, Journey Maps, Heuristic Evaluation, Competitive Analysis

Tools: Figma, Adobe CC (Photoshop, Illustrator, InDesign, XD, Premiere Pro), Webflow, Miro, Canva, Rhino 3D

Technical: HTML/CSS/JavaScript, Claude Code, Codex, Python, R, Git/GitHub, VS Code, Microsoft Office Suite, Slack
